Presents

**A 5-Day  
Training  
Workshop**

THEME

**ANALYTIC AND CREATIVE  
PROBLEM SOLVING**

## Introduction

**T**ough problems solving requires the ability to define the true problem, analyse the possible causes, create options, select the most feasible option and then implement it. A systematic approach will give you the techniques to resolve the problem in a creative way

This problem solving workshop should help participants enhance their skills to find sustainable solutions and learn new ways to approach problem solving to reach win-win decisions.

## Objectives

Upon completion of this workshop, participants will be able to:

- Identify problems using appropriate tools and techniques
- Generate multiple solutions using creative thinking techniques to generate ideas solve workplace problems
- Evaluate and implement an action plan to resolve workplace problems
